

Real Art: Web Developer

Position Overview

Our client, **Real Art, located in Dayton, OH**, is currently seeking a **Web Developer** to join their team. You will enjoy a supportive team atmosphere that thrives on creativity and collaboration. Real Art combines the never-before-seen with the why-didn't-I-think-of-that. Blending art and invention, they handle client projects from strategy and concept through production and implementation.

Our ideal candidate will bring technical experience in both web development and web servers. They must have impeccable technical skills as well as a passion for learning new things and an incredible sense of modern web design and systems.

Real Art includes digital designers, print designers, industrial designers, developers, technologists, writers, engineers, and fabricators. Are you a fun-loving individual who loves the work they do and believes in pushing the bounds of what's possible? If so, let's talk!

Key Responsibilities

- Responsible for programming, testing, and implementation of client-side and server-side software
- Recommend architecture and design optimizations to improve the scalability of the applications and maximize performance
- Specific knowledge of back-end systems. In this position, you will work alongside designers and developers to support programming solutions from development to testing to release, using the latest tools and technologies.
- Ability to work quickly and efficiently to solve problems with attention to detail, be able to manage multiple projects effortlessly, and meet deadlines
- Work collaboratively with producers, designers, and development teams
- Implement and support existing applications using JavaScript / NodeJS, C#, PHP, and MySQL

Requirements

- BS degree in Computer Science
- 3+ years of experience in web development
- Deep understanding and capability in JavaScript / NodeJS, C#, PHP, and MySQL
- Experience with active development on WordPress and/or Drupal
- Experience developing web-based desktop applications a plus
- Experience using GIT or relevant version control system
- Experience working in a creative environment is preferred

Desired Attributes

- A flawless sense of modern web and user experience
- Up-to-date knowledge of latest technologies and ability to troubleshoot difficult problems
- Work quickly and efficiently to solve problems with attention to detail and can manage multiple projects smoothly, meet deadlines, and work collaboratively with team members across Real Art's diverse disciplines
- Respectful and approachable while building strong working relationships and maintaining a positive work environment
- Possess strong written, verbal, and nonverbal communication skills
- Strong presentation skill for discussing work both internally and externally
- Strong interpersonal skills (in person and remotely)

Benefits & How to Apply

Benefits include a competitive base salary, being part of a growing company, as well as a competitive and comprehensive benefits package including 401(k) match, healthcare coverage, dental, vision, life insurance, long-term and short-term, and disability coverage.

A Slice of HR is working with this client on a retained search basis. If you meet the qualifications and want to join this team of talented individuals, please send your resume to [**meagan@asliceofhr.com**](mailto:meagan@asliceofhr.com).
