R **REAL ART**

Real Art: Digital Project Manager

Position Overview

Are you ready to join a company that thrives in combining the "never been seen before" with the "why didn't I think of that"?

Does the prospect of being a part of an innovative creative agency excite you? We are looking for a dynamic, forward-thinking **Digital Project Manager** with a proven track record in a fast-paced, deadline-driven agency environment. In this on-site position, you'll bring a wealth of experience working on a variety of client projects, collaborating with multidisciplinary teams, and managing multiple creative assets at once. You will be essential in driving the process, serving as a hub of knowledge in the digital space to guide teams, and oversee project details. Experience in website design and development, and SEO management is preferred.

Our client, **Real Art**, located in Dayton, OH, has a knack for blending art and invention. They handle client projects from strategy and concept through production and implementation. Their team includes digital designers, print designers, industrial designers, developers, technologists, writers, engineers and fabricators.

The ideal candidate is a natural leader with a curious spirit who loves working with a creative team and is ready to explore new digital opportunities. If you're excited to bring your ideas and experience to inspire teams and embrace the digital landscape, we want to hear from you.

Key Responsibilities

- Work with internal teams to help define project scope, resource requirements, timelines, and cost estimates for projects.
- Serve as the hub of communication for the projects—maintaining regular contact with internal and external partners.
- Manage project details using tools like Smartsheets, Jira, and Google Sheets.
- Implement content management systems such as WordPress, and the integration of third-party APIs.
- Create and maintain realistic project timelines with clearly flagged milestones.

Requirements

- BA degree in Graphic Design, Digital Marketing, or related field.
- 5+ years of experience in digital development and project management, with a strong foundation in web design and development solutions. Experience in an agency environment and the ability to help provide multiple solutions is strongly preferred.
- Excellent written and verbal communication skills, along with presentation skills for discussing work both internally and externally.
- Ability to troubleshoot project challenges, make quick decisions, and pivot as needed.

Desired Attributes

- An experienced sense of modern web and user interface design.
- Ability to work quickly and efficiently to solve problems with attention to detail.
- Capability to manage multiple projects smoothly, meet deadlines, and work collaboratively.
- Respectful and approachable while building strong working relationships and maintaining a positive work environment.

Further Information

Real Art is a creative agency that gets their clients noticed through never-before-seen campaigns that instill a sense of wonder. They specialize in branding, content, and experiential campaigns, and to ensure their ideas always maintain that initial creative spark, Real Art handles their own writing, video production, programming, and fabrication in-house. Founded in 1985, they are proudly independent, and Ohio based.

Benefits & How to Apply

Benefits include a competitive base salary, being part of a growing company, as well as a comprehensive benefits package including 401(k) match, healthcare coverage, dental, vision, life insurance, long-term and short-term, and disability coverage.

One Digital is working with this client on a retained search basis. If you meet the qualifications and want to join this team of talented individuals, please send your resume to **meagan.senkowski@onedigital.com.**
